Pearl Shells.

Pearl shells need to grow three or four years, but as the possible pearl does not depend on the age or size of the shell the small ones are usually as ruthlessly opened as though no law on the subject existed.

TRUTH IS MIGHTY

And Will Prevail.

An epidemic of sales has corrupted the Clothing business. The sham has grown with years, until effrontery blazons itself on every side.

Coats, Suits and Trousers are marked double their worth and then reduced half! If some advertisers were compelled to establish the truth of their statements it would ruin many of them—since it would force them to be honest. It is easy to distinguish between our values and false values. That's what has made our great business. How else could we sell more Clothing than any other store in town? People buy where they can get the most for their money and are certain of satisfaction.

The success of a store depends upon what it does and not what it promises to do.
